## **HELSINKI**

A fireplace conveying a striking visual impression. Distinctive elements include the refined steel hood with Corten finish, also available in the Nero or Bianco coated steel version, and the majolica base consisting of large-size panels. The majolica panels are available in the extensive range of Piazzetta colours, for enhancing any environment.

The firebox is surrounded by refined majolica panels conveying the pleasant sensation of a warm, live material, and offer an ideal setting for experiencing the pleasure of crackling fire. The firebox is equipped with a panoramic glass featuring an exclusive electrically-operated lift mechanism (in the picture, Bianco majolica, steel structure with Cor-ten finish, M360 R wood-burning firebox).
